Simple example of Processing API for ForceLAB2 or Snowforce 3.

※The provided code is example code, and the performance may differ from actual results.

DEVELOPMENT ENVIRONMENT

- Processing <http://www.processing.org>
- Snowforce 3
 - <https://www.kitronyx.co.kr/store/?idx=72>

QUICK START

- Download or clone source code
- Open and run `klib_processing.pde`.
